WHY VEHICLE SIGNAGE?

Vehicle Signage is the best way to promote your business. Think about your vehicle as your own personal moving billboard.

We can provide graphics to meet almost any budget, from simple spot graphics to vehicle wrap graphics.

Berwick Signs will print your vehicle graphics with the latest quality vinyl graphics to produce vibrant graphics with visual impact and long service life.

For this reason, we print your vehicle graphics with the latest Roland wide-format technology available, and use quality vinyls such as Avery, Metamark and Hexis.

We apply a UV over-laminate to our digitally printed vehicle graphics to protect the film from UV, weather, and abrasion to give your wrap a longer lasting life.

All graphics are applied by our in house skilled installers whom have years of experience in signage and wrapping industry.
